

PROFILE VIEWS

Red granite diamond-shaped plinth sitting on dark gray circular base.

Plinth has four equal-width sides, each 18.75 in, making the perimeter total **75.0** inches. The narrow dimension from left to right is also 18.75 in, forming a **diamond** shape.

The top of the plinth is set an 9.69 degree angle, higher in the rear and shorter in the front.

Height of vertex A from base = **94.7** cm (37.38 in)

Height of vertices B and D from base = 80.85 cm (31.83 in)

Height of vertex C from base = **67.0** cm (26.38 in)

Base radius = **19.61** in
 Base diameter = 39.22 in
 Base circumference = 123.21 in

Height of base = 10.2 in

REAR VIEW

FRONT VIEW

LEFT SIDE VIEW

RIGHT SIDE VIEW

Plaques located on three of the four panels are 12 inches wide and 18 inches tall. Each follows the same base alignment at 3.375 inches above the base, and is centered to the panel width.

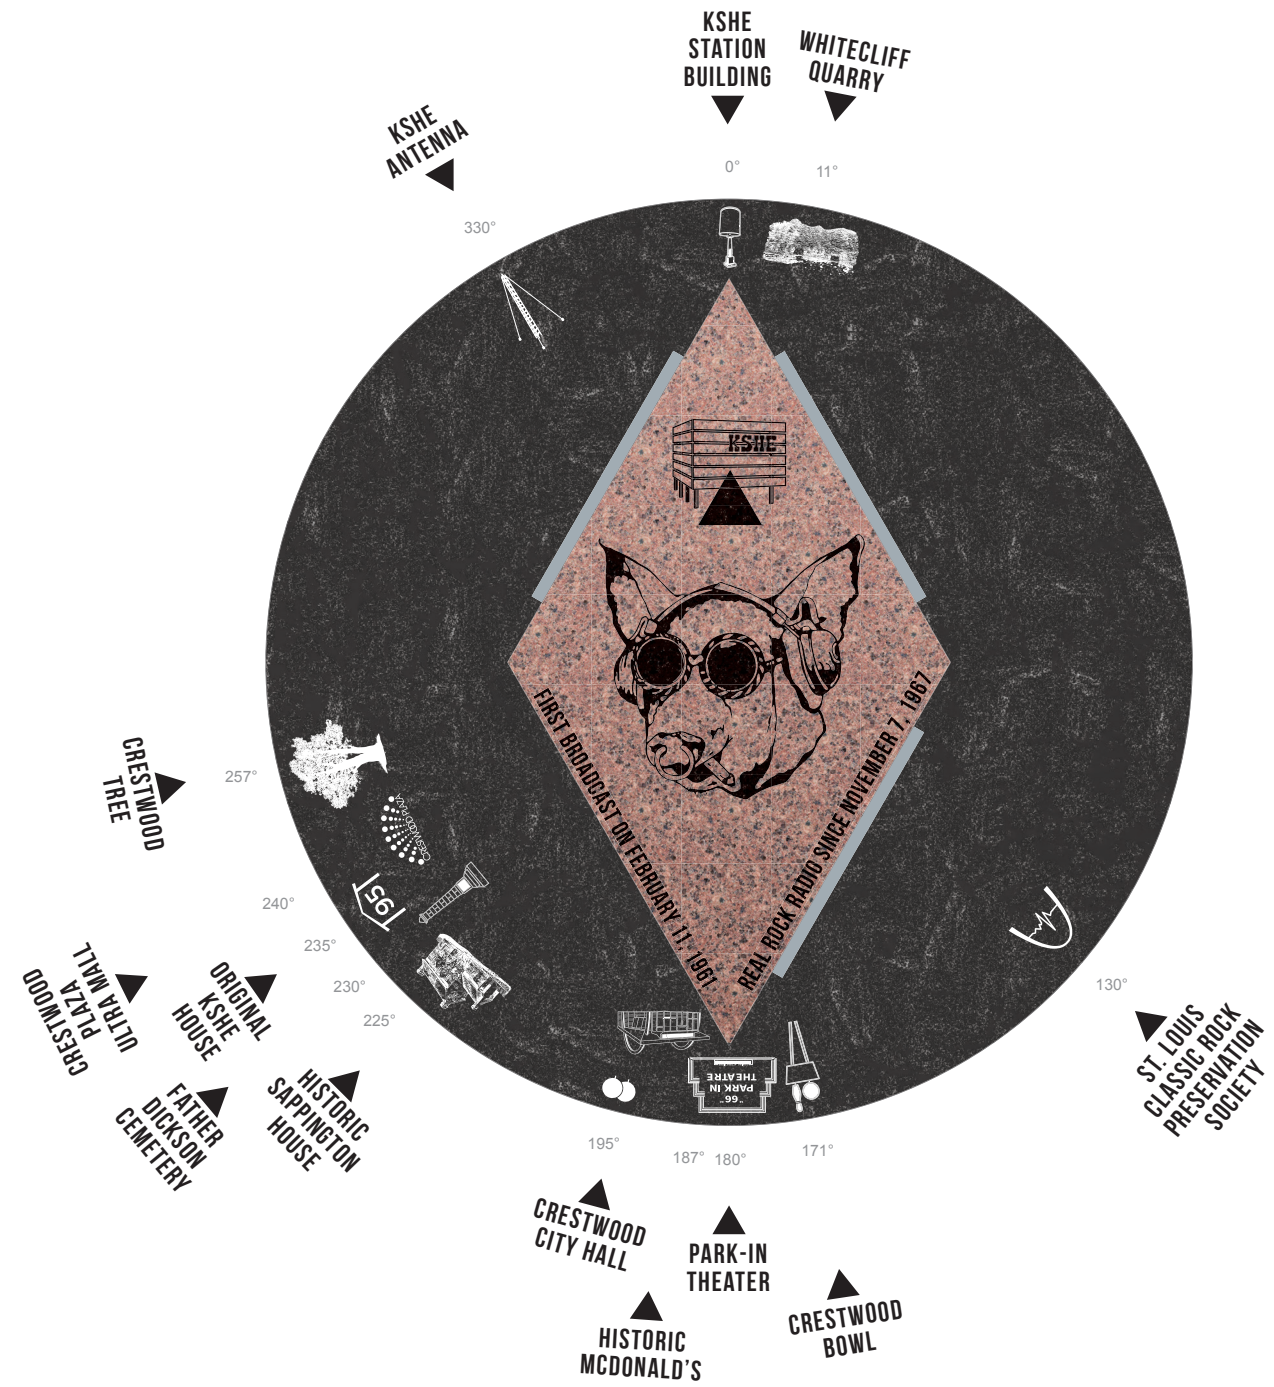

OVERHEAD VIEW

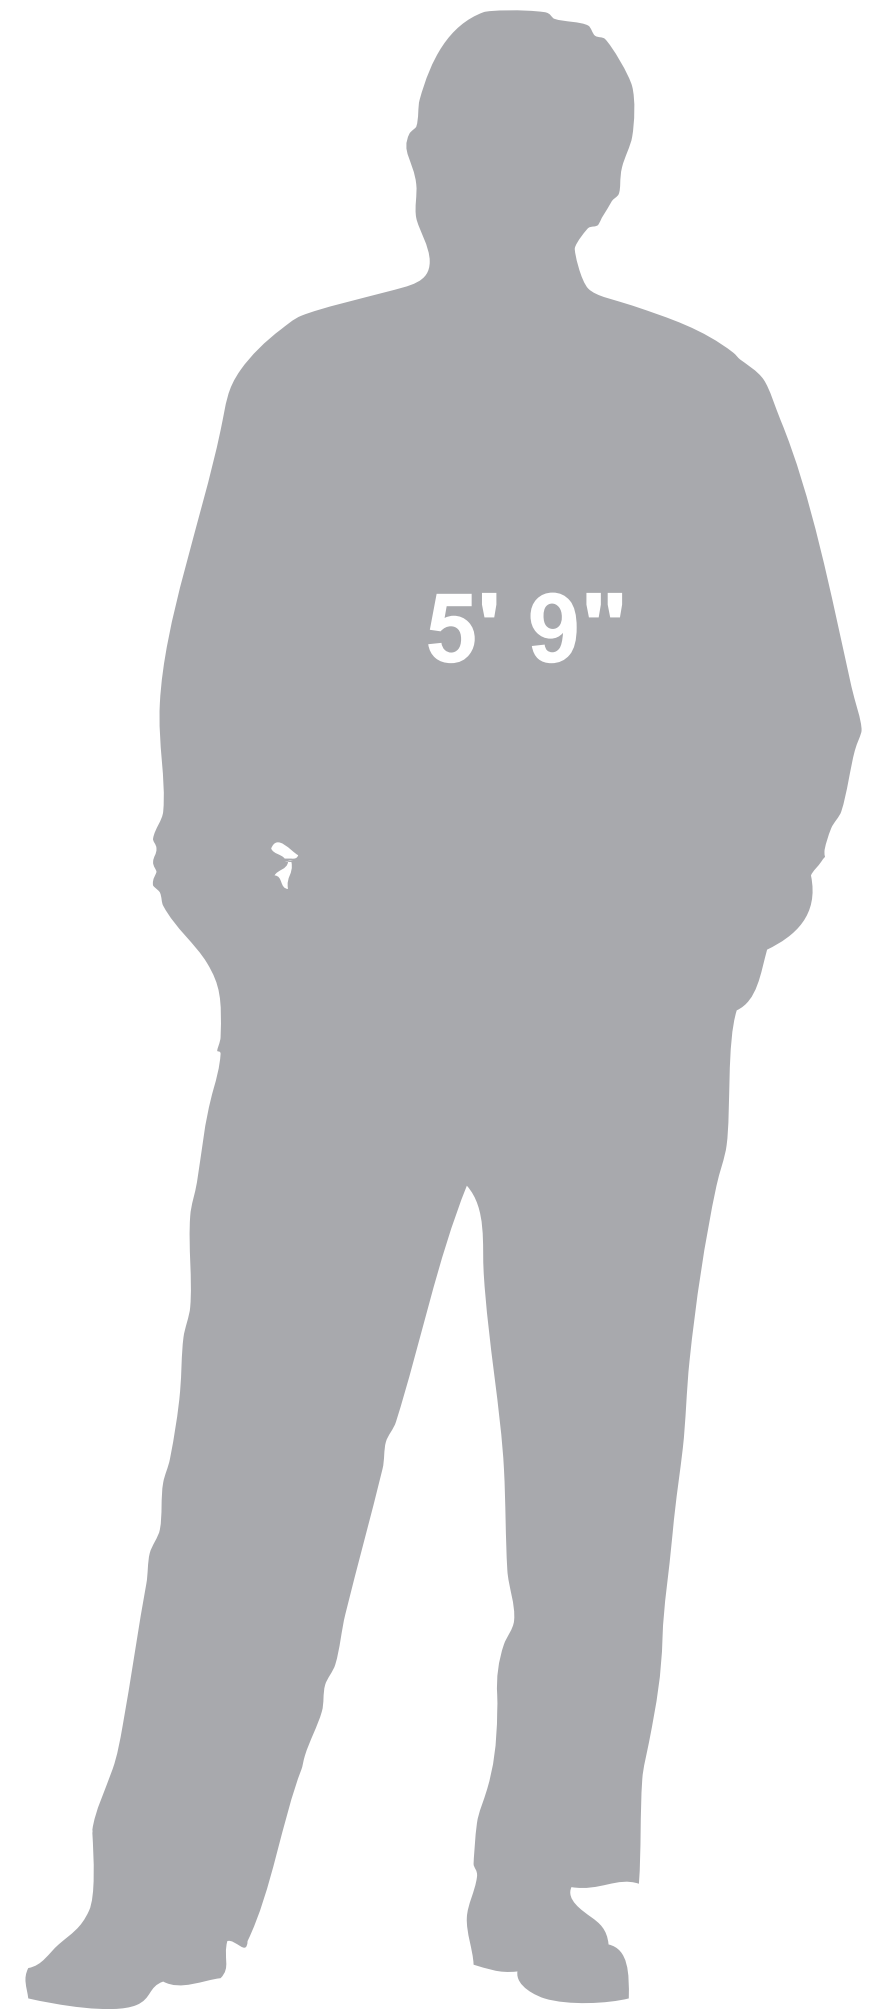

Metal plaques with raised lettering.

Engravings are etched into stone.

On red stone, they are filled with black coloring.

On dark gray stone, they are filled in with a light coloring.

Engravings around outward-facing edge of base. The order of the engraving can be where they are in relation to the compass from the center of the marker, but basically would appear random. Could also include non-location-based icons or events.
